Continuation of 5. does NOT place the application in condition for allowance because: Regarding symmetrical ground plane: Wicks et al. teaches in figure 5 (cutoff ground plane in figure 4) the ground plane is rectangular and all antenna elements are "worked against ground", a physical symmetrical relationship between antenna elements and ground plane. Figure 5 shows a rectangular ground plane (See col. 2, lines 50-55, i.e. a metal ground plane) that provides the symmetrical relationship.
